

# Youth Council

## Highlights

The Jobs for Missouri's Graduates (JMG) program in the Willow Springs High School and the Mountain View-Birch Tree High School sites have been very successful. They have accomplished the goals that were set out for them. Plans are in the works for expanding this very successful program.

The file monitoring is now being done with a new Timeline format to help understand each individual participant's story.

A new exciting project is the Youth Conservation Corps (YCC). This is in cooperation with the Division of Youth Services (DYS) and the Department of Conservation. The pilot project was inspiring for participants, the community, and the WIB.
